

Catastrophe Reinsurance Program

Effective June 1, 2015 to May 31, 2016

Northbrook, Ill., August 3, 2015 – We have completed the placement of our 2015 personal lines catastrophe reinsurance program^{*} for the personal lines property and automobile business units of The Allstate Corporation (NYSE: ALL)..

Our catastrophe reinsurance program allows us to continue to provide customers with insurance while protecting capital from the costs associated with major catastrophe losses. It was designed, utilizing our risk management methodology, to address our exposure to catastrophes nationwide. Our program provides reinsurance protection for catastrophes resulting from multiple perils, including hurricanes, windstorms, hail, tornadoes, earthquakes, fires following earthquakes, riots, freeze, and wildfires. These reinsurance agreements are part of our catastrophe management strategy, which is intended to provide our shareholders an acceptable return on the risks assumed in our property business, and to reduce variability of earnings while providing protection to our customers. We place coverage in the traditional reinsurance and capital markets considering a number of factors including coverage, cost, terms, and the period of protection.

Our 2015 reinsurance program continues to support our goal to have no more than a 1% likelihood of exceeding average annual aggregate catastrophe losses by \$2 billion, net of reinsurance, from hurricanes and earthquakes, based on modeling assumptions and applications currently available. Since the 2006 inception of Allstate's catastrophe reinsurance program, our exposure to wind loss has been materially reduced and we have substantially eliminated our exposure to homeowners' earthquake loss. Similar to our 2014 program, we have designed our 2015 program to respond to these exposure changes by including coverage in all agreements for multiple perils, in addition to hurricanes and earthquakes, except for the following agreements which reinsure specific perils:

- the “2013-1 PCS Excess Catastrophe Reinsurance agreement”- an agreement comprising two contracts which provides coverage in specific states for hurricanes and earthquakes, including fires following earthquakes, based on insured industry losses as reported by the Property Claim Service (“PCS”);
- the “2014-1 PCS Excess Catastrophe Reinsurance agreement”- an agreement comprising three contracts which provides coverage in specific states for hurricanes and earthquakes, including fires following earthquakes, based on insured industry losses as reported by PCS;
- the “Sanders Re 2014-2 Excess Reinsurance contract”- which provides coverage to qualifying personal lines property losses in the State of Florida arising out of a Named Storm Event, a Severe Thunderstorm Event, or an Earthquake event, all as defined in the contract;
- the “E&S Earthquake agreement”- an agreement which provides coverage for earthquakes, shake damage only, in the State of California, resulting from losses to personal lines property policies written by our excess and surplus lines insurer; and
- a Kentucky agreement which provides coverage for earthquakes and fires following earthquakes.

The Nationwide Per Occurrence Excess Catastrophe Reinsurance program, as described below, provides \$4.42 billion of reinsurance coverage subject to a \$500 million retention and subject to the amount of reinsurance placed in each of its ten layers. Similar to the expiring program, the 2015 program includes a Per Occurrence Excess Catastrophe Reinsurance agreement which reinsures our personal lines property and automobile excess catastrophe losses resulting from multiple perils in every state other than Florida and New Jersey; provides coverage for the first six layers of the program with each layer 95% placed; provides coverage for a portion of the program's Ninth Layer limit; and includes a reinstatement of limits for each of the first six layers and a portion of the program's Ninth Layer. For June 1, 2015 to May 31, 2016, the program also consists of three additional agreements: a 2013-1 PCS Excess Catastrophe Reinsurance agreement; a 2014-1 PCS Excess Catastrophe Reinsurance agreement; and a Buffer Layer Excess Catastrophe Reinsurance agreement. These agreements provide additional limits above the Sixth Layer of the Per Occurrence Excess Catastrophe Reinsurance agreement and do not include a reinstatement of limits. In addition, the PCS agreements provide coverage in specific states^{**} solely for hurricanes and earthquakes, including fires following earthquakes.

^{*} A reinsurance program is comprised of one or more reinsurance agreements and a reinsurance agreement is comprised of one or more reinsurance contracts.

^{**} While the 2014-1 PCS Excess Catastrophe Reinsurance agreement does not provide reinsurance recoveries for New Jersey hurricane exposures for the risk period, beginning May 22, 2015, the agreement allows for the potential of these recoveries in the remaining risk periods.

A description of the catastrophe reinsurance agreements that reinsure the personal lines property and automobile business as of June 1, 2015 follows:

- Nationwide Per Occurrence Excess Catastrophe Reinsurance program, excluding Florida and New Jersey, for the June 1, 2015 to May 31, 2016 term
 - The Per Occurrence Excess Catastrophe Reinsurance agreement reinsures personal lines property and automobile excess catastrophe losses caused by multiple perils in layers one through six and layer nine of the program. We employ a multi-year approach to placing reinsurance coverage to lessen the amount of reinsurance being placed in the market in any one year. Coverage is provided as follows:

First Layer: \$250 million limit in excess of a \$500 million retention, 1 reinstatement
Second Layer: \$250 million limit in excess of a \$750 million retention, 1 reinstatement
Third Layer: \$500 million limit in excess of a \$1.00 billion retention, 1 reinstatement
Fourth Layer: \$750 million limit in excess of a \$1.50 billion retention, 1 reinstatement
Fifth Layer: \$500 million limit in excess of a \$2.25 billion retention, 1 reinstatement

Coverage for each of the First through Fifth Layers comprises three contracts, with each contract providing one third of 95% of the total Layer limit and expiring as of May 31, 2016, May 31, 2017, and May 31, 2018. The contracts for each of the First through Fifth Layers include one reinstatement of limits, per year, with premium required. Reinsurance premiums are subject to redetermination for exposure changes at each anniversary.

Sixth Layer: \$324 million limit in excess of a \$2.75 billion retention, 1 reinstatement
Ninth Layer: \$446 million limit in excess of a \$3.62 billion retention, 1 reinstatement

The Sixth Layer contract is 95% placed and expires May 31, 2022. The Ninth Layer contract expires May 31, 2022 and provides \$131 million in limits or 29.37% of the Ninth Layer limit and, in conjunction with the previously placed 2013-1 PCS Class A contract and the 2014-1 PCS Class C contract, achieves a 100% placement of the program's Ninth Layer.

The Sixth Layer and Ninth Layer contracts were placed in the traditional reinsurance market and contain comparable terms and conditions as Layers One through Five. In addition, each contract contains a variable reset option which the ceding entities may elect to invoke at each anniversary allowing for the annual adjustment of each contract's attachment and exhaustion levels within specified limits. The variable reset option requires a premium adjustment for an increase or decrease in the updated modeled annual expected loss from the initial modeled annual expected loss. The Sixth and Ninth Layer contracts each contain one reinstatement of limits over each of their seven year terms. Reinsurance premiums are subject to redetermination for exposure changes at each anniversary.

- The 2013-1 PCS Excess Catastrophe Reinsurance agreement reinsures personal lines property and automobile excess catastrophe losses caused by hurricanes in 28 states and the District of Columbia, and earthquakes, including fires following earthquakes, in California, New York, and Washington. This agreement is placed with a Bermuda insurance company, Sanders Re Ltd. ("Sanders Re"), which completed an offering to unrelated investors of principal at risk, variable market rate notes to collateralize losses covered by the agreement. Amounts payable under the agreement are based on insured industry losses as reported by PCS and further indexed by annual pay-out factors specific to personal lines property and automobile exposures in the agreement's covered areas (the "pay-out factors"). Reinsurance recoveries under the 2013-1 PCS Excess Catastrophe Reinsurance agreement are limited to our ultimate net loss from a PCS reported hurricane or earthquake event, in excess of each contract's specific attachment level and subject to each contract's limit. The agreement's risk period is for four years from May 4, 2013 to May 3, 2017. The placement of these contracts achieves, for the perils of hurricane and earthquakes, including fires following earthquakes, a \$150 million limit or 34.09% of \$440 million between a \$3.07 billion to \$3.51 billion layer and a \$200 million limit or 44.84% of \$446 million between a \$3.62 billion to \$4.07 billion layer. The contracts do not include a reinstatement of limits.
- The 2014-1 PCS Excess Catastrophe Reinsurance agreement reinsures personal lines property and automobile excess catastrophe losses caused by hurricanes in 29 states and the District of Columbia, and earthquakes, including fires following earthquakes, in California, New York, and Washington. This agreement is placed with Sanders Re which utilized privately placed funding similarly employed for the 2013-1 PCS Excess Catastrophe Reinsurance agreement to provide collateral equal to the agreement's limits for qualifying covered losses. Amounts payable under the agreement are based on insured industry losses as reported by PCS and further indexed by pay-out factors as described above. For the May 22, 2015 to May 21, 2016 risk period, the pay-out factors for personal lines property and

- automobile hurricane exposures in the State of New Jersey are zero. Reinsurance recoveries under the 2014-1 PCS Excess Catastrophe Reinsurance agreement are limited to our ultimate net loss from a PCS reported hurricane or earthquake event, in excess of each contract's specific attachment level and subject to each contract's limit. The agreement comprises three contracts with each contract's risk period beginning on May 22, 2014 and with two of the three contracts' risk periods expiring on May 21, 2018 and one contract's risk period expiring on May 21, 2019. The placement of these contracts achieves, for the perils of hurricane and earthquakes, including fires following earthquakes, a \$305 million limit or 61% of \$500 million between a \$3.07 billion to \$3.57 billion layer; a \$115 million limit or 25.78% of \$446 million between a \$3.62 billion to \$4.07 billion layer; and a \$330 million limit or 95.1% of \$347 million between a \$4.07 billion to \$4.42 billion layer. The contracts comprising the agreement contain a variable reset option which the ceding entities may elect to invoke for risk periods subsequent to the first risk period and which allows for the annual adjustment of each contract's attachment and exhaustion levels within specified limits. The variable reset option requires a premium adjustment for an increase or decrease in the updated modeled annual expected loss from the initial modeled annual expected loss. The contracts do not include a reinstatement of limits.
- The Buffer Layer Excess Reinsurance agreement reinsures personal lines property and automobile excess catastrophe losses caused by multiple perils in all states except Florida and New Jersey. The agreement comprises two, two-year term contracts, each incepting June 1, 2015 and expiring May 31, 2017. For the June 1, 2015 to May 31, 2016 term, one contract, providing a portion of coverage in the Seventh Layer, provides one annual limit of 34% of \$60 million in limits or \$20.4 million excess of a \$3.51 billion retention. The placement of this contract, in conjunction with the 2013-1 PCS Class B contract and the 2014-1 PCS Class D PCS contract, achieves a 95% placement of the Seventh Layer. The Eighth Layer comprises a separate contract that provides one annual limit of \$50 million excess of a \$3.57 billion retention and is 95% placed. The contracts do not include a reinstatement of limits. These contracts were placed in the traditional reinsurance market and contain comparable terms and conditions as Layers One to Five. The reinsurance premium is subject to redetermination for exposure changes.
 - The New Jersey Excess Catastrophe Reinsurance agreement is designed apart from the other components of the program to address the distinct needs of our separately capitalized companies in that state and comprises two existing and a newly placed contract that reinsure personal lines property and automobile excess catastrophe losses in New Jersey. The contracts expire May 31, 2016, May 31, 2017 and May 31, 2018 and provide 31.67%, 31.67%, and 31.66, respectively, of \$400 million of limits excess of a provisional \$165 million retention, a \$157 million retention, and a \$150 million retention, respectively. Each contract includes one reinstatement of limits per contract year with premium due. The reinsurance premium and retention are subject to redetermination for exposure changes at each anniversary.
 - The Pennsylvania Excess Catastrophe Reinsurance agreement comprises a newly placed three-year term contract that reinsures personal lines property losses in Pennsylvania caused by multiple perils. The contract expires May 31, 2018 and provides three limits of \$100 million in excess of a \$100 million retention with two limits available in any one contract year and is 95% placed. The reinsurance premium and retention are not subject to redetermination for exposure changes.

In addition, the following Kentucky, E&S Earthquake, and Florida reinsurance agreements, effective respectively on June 1, 2014, July 1, 2013, and June 1, 2014, remain in effect with no changes:

- The Kentucky Earthquake Excess Catastrophe Reinsurance agreement comprises an existing three-year term contract that reinsures personal lines property losses in Kentucky caused by earthquakes and fires following earthquakes. The contract expires May 31, 2017 and provides \$25 million in excess of a \$5 million retention with two limits available in any one contract year and is 95% placed. The reinsurance premium and retention are not subject to redetermination for exposure changes.
- The E&S Earthquake agreement comprises one three year term contract which reinsures personal lines property catastrophe losses in California caused by the peril of earthquakes and insured by our excess and surplus lines insurer. The contract expires June 30, 2018. Unlike the other contracts comprising the Nationwide Program, the E&S Earthquake agreement provides reinsurance on a 100% quota share basis with no retention. The contract allows for cession of policies providing earthquake coverage so long as the total amount of in-force building limits provided by those policies does not exceed \$400 million. This \$400 million cap limits the policies that are covered by the reinsurance and not the amount of loss eligible for cession which includes losses to dwellings, other structures, personal property, and additional living expenses on policies covered by this program. The cap limit has not been exceeded. The E&S Earthquake agreement reinsures only shake damage resulting from the earthquake peril.

- The Florida Excess Catastrophe Reinsurance agreement is designed apart from the other components of the program to address the distinct needs of our separately capitalized companies in that state and comprises six contracts which reinsure Castle Key Insurance Company (“CKIC”) and Castle Key Indemnity Company (“CKI”, and together with CKIC, “Castle Key”) for personal lines property excess catastrophe losses in Florida. For the June 1, 2015 to May 31, 2016 term, the agreement includes CKIC’s and CKI’s reimbursement contracts with the Florida Hurricane Catastrophe Fund (the “Mandatory FHCF contracts”)^{***}. All contracts comprising the agreement, except the Sanders Re 2014-2 Class A contract (“Sanders Re 2014-2 contract”), provide a one year term effective June 1, 2015 through May 31, 2016 with reinsurance premium subject to redetermination for exposure changes. The Sanders Re 2014-2 contract is a three year term contract with a risk period effective June 1, 2014 through May 31, 2017. Sanders Re utilized privately placed funding similarly employed for the Nationwide Program’s two agreements to provide collateral equal to the contract’s limit for qualified covered losses. The Sanders Re 2014-2 contract contains a variable reset option which Castle Key may elect to invoke for the last two risk periods and which allows for annual adjustment of the contract’s attachment level, within specified limits, and at a corresponding premium adjustment. With the exception of the Mandatory FHCF contracts and the Sanders Re 2014-2 contract, all contracts provide reinsurance for qualifying losses to personal lines property arising out of multiple perils in addition to hurricanes. The Mandatory FHCF contracts reinsure qualifying personal lines property losses caused by storms the National Hurricane Center declares to be hurricanes, and the Sanders Re 2014-2 contract reinsures qualifying losses to personal lines property caused by a Named Storm Event, a Severe Thunderstorm Event, or an Earthquake Event. These Events are defined in the Sanders Re 2014-2 contract as Events declared by various reporting agencies, including PCS, and in the case of a Severe Thunderstorm Event, should PCS cease to report on Severe Thunderstorms, then such event will be deemed a Severe Thunderstorm if the Companies have assigned a catastrophe code to such Severe Thunderstorm.

The Mandatory FHCF contracts include an estimated maximum provisional limit of 90% of \$181 million or \$163 million, in excess of a provisional retention of \$66 million, and also include reimbursement of up to 5% eligible loss adjustment expenses. The limit and retention of the Mandatory FHCF contracts are subject to re-measurement based on June 30, 2015 exposure data. In addition, the FHCF’s retention is subject to adjustment upward or downward to an actual retention based on submitted exposures to the FHCF by all participants. For each of the two largest hurricanes, the provisional retention is \$66 million and a retention equal to one third of that amount, or approximately \$22 million, is applicable to all other hurricanes for the season beginning June 1, 2015. All the contracts comprising the Florida agreement are listed and described below:

- Below FHCF contract – provides limits of \$51 million in excess of \$15 million and is 100% placed. The first reinstatement of limits is prepaid and the second and final reinstatement requires additional premium.
- Mandatory FHCF contracts – provide 90% of \$181 million excess of a provisional retention of \$66 million with no reinstatement of limits. For each of the two largest hurricanes, the provisional retention is \$66 million and retention equal to one third of that amount, or approximately \$22 million, is applicable to all other hurricanes for the season beginning June 1, 2015.
- FHCF Sliver contract – provides limits for the 10% co-participation of the mandatory FHCF coverage up to \$18 million with no reinstatement of limits.
- Excess contract – provides limits of \$275 million in excess of \$66 million (the FHCF retention), and in excess of an estimated \$181 million limit (100% of the FHCF Sliver contract limit as opposed to its actual 10% placed limit of \$18 million). This contract is 100% placed with no reinstatement of limits. This contract’s retention adjusts downward when qualifying losses consume the FHCF Sliver contract limit of \$181 million which is deemed to have been placed, and thereafter further adjusts downward upon the exhaustion of any portion of the Below FHCF contract limit and once the Below the FHCF contract’s limits and the two reinstatements of these limits have been expended by qualifying losses. When applying the dropdown adjustment, the qualifying losses are deemed to be those reinsured pursuant to the multiple perils coverage provided by the FHCF Sliver contract.

^{***} CKIC’s and CKI’s Mandatory FHCF coverage is provided under reimbursement contracts distinct to each entity; CKIC’s FHCF Reimbursement contract provides a \$40,166,638 retention with a \$110,069,578 limit, and CKI’s Reimbursement contract provides a \$25,801,620 retention with a \$70,704,785 limit. For ease of reference, the FHCF’s provisional retentions and limits have been consolidated for purposes of this disclosure.

- Sanders Re 2014-2 contract – provides limits of \$200 million in excess of \$66 million and in excess of “Stated Reinsurance,” as defined on the 2015 Florida Excess Catastrophe Reinsurance Agreement chart on page 13 and, for the first annual period, consists of the Mandatory FHCF contracts as if each contract were 100% placed and the Excess contract. Under the Sanders Re contract, Stated Reinsurance is deemed to be provided on a multiple perils basis pursuant to the terms of the non-FHCF contracts. Further, the Stated Reinsurance includes an erosion feature which provides that upon the exhaustion of a portion of the Stated Reinsurance, coverage under the Sanders Re contract shall be concurrently placed above and contiguous to the unexhausted portion of the Stated Reinsurance, if any.

The reinsurance agreements have been placed in the global reinsurance market. All reinsurers participating on our program, except Sanders Re, are rated by A.M. Best and maintain an A.M. Best insurance financial strength rating of A- or better. Sanders Re, who is not rated by A.M. Best or S&P, has provided collateral in an amount equal to its reinsurance limits. All rated reinsurers, except two, also maintain an S&P rating of A- or better.

The total cost of our property catastrophe reinsurance programs during the first and second quarter of 2015 was \$111 million and \$109 million. The total cost of our catastrophe reinsurance programs during 2014 was \$113 million in the first quarter, \$112 million in the second quarter, \$110 million in the third quarter and \$113 million in the fourth quarter. These quarterly costs reflect premium re-measurements recognized in the quarter.

The terms, retentions and limits for Allstate's Catastrophe Reinsurance Program in place as of June 1, 2015 are contained in the following tables.

Nationwide Catastrophe Reinsurance Program
(\$ in millions)

<u>Excess of Loss Contracts</u>	<u>Effective date</u>	<u>% of placed layer</u>			<u>Reinstatements</u>	<u>Retention</u>	<u>Per occurrence Limit</u>

⁽¹⁾ The Per Occurrence Excess Catastrophe Reinsurance agreement reinsures personal lines property and automobile excess catastrophe losses caused by multiple perils in all states other than Florida and New Jersey. Each of the First through the Fifth Layers of the agreement comprise three contracts, each expiring 5/31/2016, 2017, and 2018, with each contract providing one third of 95% of the total Layer limit. The Sixth Layer is 95% placed and comprises one contract expiring May 31, 2022. The Ninth Layer contract provides 29.37% of \$466 million in limits or \$131 million and expires May 31, 2022. Both the Sixth and Ninth Layer contracts were placed in the traditional reinsurance market and contain comparable terms and conditions as Layers One to Five. All contracts include one reinstatement of limits with premium required. Reinsurance premium is subject to redetermination for exposure changes at each anniversary.

⁽²⁾ The 2013-1 PCS Excess Catastrophe Reinsurance agreement comprises two contracts that reinsure personal lines property and automobile excess catastrophe losses caused by hurricanes in 28 states and the District of Columbia, and earthquakes, including fires following earthquakes, in California, New York, and Washington. The Class B Excess Catastrophe Reinsurance contract is a four year term contract and provides one limit of \$150 million or 34.09% of \$440 million excess of a \$3.07 billion attachment level. The Class A Excess Catastrophe Reinsurance contract is a four year term contract and provides one limit of \$200 million or 44.84% of \$446 million excess of a \$3.62 billion attachment level. The contracts do not include a reinstatement.

⁽³⁾ The 2014-1 PCS Excess Catastrophe Reinsurance agreement comprises three contracts that reinsure personal lines property and automobile excess catastrophe losses caused by hurricanes in 29 states and the District of Columbia, and earthquakes, including fires following earthquakes, in California, New York, and Washington. The Class D Excess Catastrophe Reinsurance contract is a five year term contract and provides one limit of \$305 million or 61% of \$500 million excess of a \$3.07 billion attachment level. The Class C Excess Catastrophe Reinsurance contract and Class B Excess Catastrophe Reinsurance contract are four year term contracts and provide one limit of \$115 million or 25.78% of \$446 million excess of a \$3.62 billion attachment level and one limit of \$330 million or 95.1% of \$347 million in excess of a \$4.07 billion attachment level respectively. The contracts do not include a reinstatement. The contracts contain a variable reset option which the ceding entities may elect to invoke for risk periods subsequent to the first risk period and which allows for the annual adjustment of each contract's attachment and exhaustion levels, within specified limits, and subject to a corresponding premium adjustment.

⁽⁴⁾ The Buffer Layer Excess Reinsurance agreement comprises two contracts that reinsure personal lines property and automobile excess catastrophe losses caused by multiple perils in all states except Florida and New Jersey. These contracts each provide a two year term and expire on May 31, 2017. One contract provides one annual limit of \$20.4 million or 34% of \$60 million excess of a \$3.51 billion retention. A separate contract provides one annual limit of 95% of \$50 million excess of a \$3.57 billion retention. These contracts do not include a reinstatement of limits. These contracts were placed in the traditional reinsurance market and contain comparable terms and conditions as Layers One to Five. The reinsurance premium is subject to redetermination for exposure changes.

⁽⁵⁾ The New Jersey agreement comprises two existing contracts and a newly placed contract that reinsure personal lines property and automobile excess catastrophe losses in New Jersey caused by multiple perils. The two existing contracts expiring May 31, 2016 and May 31, 2017 and the newly placed contract expiring May 31, 2018 each provide 31.67%, 31.67% and 31.66%, respectively, of the \$400 million limit in excess of a provisional \$165 million retention, a \$157 million retention, and a \$150 million retention, respectively. Each contract includes one reinstatement of limits per contract year, with premium due. The reinsurance premium and retention are subject to redetermination for exposure changes at each anniversary.

⁽⁶⁾ The Pennsylvania agreement reinsures personal lines property excess catastrophe losses in Pennsylvania caused by multiple perils. The contract has a three year term effective 6/1/2015 to 5/31/2018 and provides three limits over three years, with two limits available in any one contract year. The reinsurance premium and retention are not subject to redetermination for exposure changes at each anniversary.

⁽⁷⁾ The Kentucky Earthquake agreement reinsures personal lines property excess catastrophe losses caused by earthquakes or fires following earthquakes in Kentucky. The contract has a three year term effective June 1, 2014 to May 31, 2017 and provides three limits over three years subject to two limits being available in any one contract year. The reinsurance premium and retention are not subject to redetermination for exposure changes at each anniversary.

⁽⁸⁾ The E&S Earthquake agreement reinsures personal lines property catastrophe losses caused by earthquakes (shake only) in California for business written by our excess and surplus lines insurer. The contract has a three year term effective July 1, 2013 to June 30, 2018, and provides reinsurance on a 100% quota share basis with no retention. The contract allows for cession of policies providing earthquake coverage so long as the total amount of in-force building limits provided by those policies does not exceed \$400 million. This \$400 million cap limits the policies that are covered by the reinsurance and not the amount of loss eligible for cession. If the \$400 million cap is exceeded, no new policies may be ceded to the agreement until the in-force building limits provided by the policies reinsured under the agreement are less than \$400 million. The reinsurance premium varies depending on the location of the insured property subject to the agreement.

* The percentage of the placed layer which the limit of each contract comprising the 2013-1 PCS Excess Catastrophe Reinsurance agreement and each contract comprising the 2014-1 PCS Excess Catastrophe Reinsurance agreement represents will vary from year to year and therefore is noted only for the 2015 catastrophe reinsurance program.

**The percentage of the placed layer which the limit of the Ninth Layer Per Occurrence contract represents will vary from year to year and therefore is noted only for the 2015 catastrophe reinsurance program.

Castle Key Group

(\$ in millions)	<u>Effective date</u>	<u>% placed</u>	<u>Reinstatement</u>	<u>Retention</u>	<u>Per occurrence Limit</u>
Below FHCF ⁽¹⁾	6/1/2015	100	3 limits over 1-year term	\$15	\$51
Mandatory FHCF Coverage ⁽²⁾	6/1/2015	90	None	66 for each of the 2 largest storms, 22 for all other storms	mandatory FHCF Coverage limit of 181
FHCF Sliver ⁽³⁾	6/1/2015	100	None	66	10% co-participation of the mandatory FHCF coverage; recoveries estimated at 18
Excess ⁽⁴⁾	6/1/2015	100	None	66, and an estimated 181 equivalent to the FHCF Sliver as if 100% placed	275
Sanders Re 2014-2 Class A Excess Catastrophe contract ⁽⁵⁾	6/1/2015	100	None	66, and 456 which is equivalent to the Mandatory FHCF Coverage as if 100% placed and the Excess	200

⁽¹⁾ Below FHCF - provides coverage beginning 6/1/2015 for 1 year covering personal lines property excess catastrophe losses on policies written by Castle Key Insurance Company and Castle Key Indemnity Company. The preliminary reinsurance premium is subject to redetermination for exposure changes. Reinsurance premium to reinstate the limit is prepaid for the first limit and required for the additional and final reinstatement limit.

⁽²⁾ Mandatory Florida Hurricane Catastrophe Fund ("FHCF") Coverage— provides 90% reimbursement on qualifying personal lines property losses caused by storms the National Hurricane Center declares to be hurricanes up to an estimated maximum per hurricane season. Estimated limits and retentions are calculated for Castle Key Insurance Company and Castle Key Indemnity Company independently, and are subject to annual re-measurements based on June 30, 2015 exposure data. The retentions are initial estimates subject to adjustment upward or downward to the actual retention which is determined based on the submitted exposures of all FHCF participants.

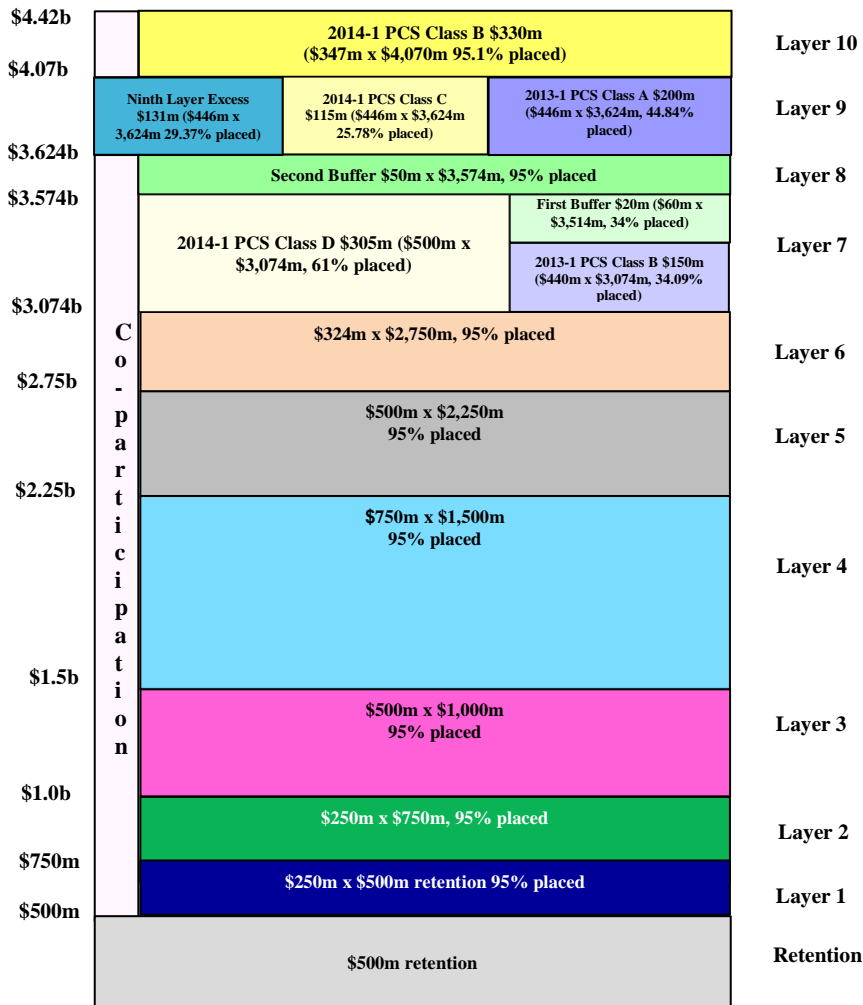

⁽³⁾ FHCF Sliver - provides coverage beginning 6/1/2015 for 1 year covering primarily personal lines property excess catastrophe losses not reimbursed by the FHCF. The retention is \$66 million and is subject to adjustment upward or downward to an actual retention that will equal the mandatory FHCF Coverage retention as respects business covered by this contract. The preliminary reinsurance premium is subject to redetermination for exposure changes. Estimated limits and retentions are calculated for Castle Key Insurance Company and Castle Key Indemnity Company independently.

⁽⁴⁾ Excess - provides coverage beginning 6/1/2015 for 1 year covering personal lines property excess catastrophe losses and is designed to attach in excess of \$66 million and the FHCF Sliver as if 100% placed. The preliminary reinsurance premium is subject to redetermination for exposure changes. The estimated limit is calculated for Castle Key Insurance Company and Castle Key Indemnity Company on a consolidated basis, and estimated retentions are calculated for each company independently.

⁽⁵⁾ Sanders Re 2014-2 Class A Excess Catastrophe contract – provides coverage beginning 6/1/2014 for 3 years covering personal lines property excess catastrophe losses. For the period beginning 6/1/2015, the coverage attaches in excess of \$66 million and in excess of Stated Reinsurance which, for the period beginning 6/1/2015, consists of the Mandatory FHCF contracts as if each contract were 100% placed and as if coverage is provided for multiple perils; and the Excess contract. The limit applies to Castle Key Insurance Company and Castle Key Indemnity Company on a consolidated basis, and retentions apply to each company independently. The contract contains a variable reset option which may be invoked for the last two risk periods and which allows for annual adjustment of the contract's attachment level, within specified limits, and subject to a corresponding premium adjustment.

2015 Nationwide Per Occurrence Excess Catastrophe Reinsurance Program

The Nationwide Per Occurrence Excess Catastrophe Reinsurance program comprises four agreements; The Per Occurrence Excess Catastrophe Reinsurance agreement; the 2013-1 PCS Excess Catastrophe Reinsurance agreement; the 2014-1 PCS Excess Catastrophe Reinsurance agreement; and the Buffer Layer Excess Catastrophe Reinsurance agreement. Each of the agreements is described below.

- Retention: The retention and limit of the agreement apply to Allstate and the other 15 ceding companies as a group.
- Per Occurrence 1st Layer Limit is \$250 million excess of \$500 million and is subject to one reinstatement.
- Per Occurrence 2nd Layer Limit is \$250 million excess of \$750 million and is subject to one reinstatement.
- Per Occurrence 3rd Layer Limit is \$500 million excess of \$1.00 billion and is subject to one reinstatement.
- Per Occurrence 4th Layer Limit is \$750 million excess of \$1.50 billion and is subject to one reinstatement.
- Per Occurrence 5th Layer Limit is \$500 million excess of \$2.25 billion and is subject to one reinstatement.
- Per Occurrence 6th Layer Limit is \$324 million excess of \$2.75 billion and is subject to one reinstatement.
- Per Occurrence 9th Layer Limit is \$446 million excess of \$3.62 billion and is subject to one reinstatement.

Per Occurrence Excess Catastrophe Reinsurance Agreement

The Per Occurrence Excess Catastrophe Reinsurance agreement comprises Layers 1 through 6 and a portion of Layer 9 of the Per Occurrence Excess Catastrophe Reinsurance program and reinsures personal lines property and automobile excess catastrophe losses resulting from multiple perils in every state other than Florida and New Jersey. Coverage for each of the First through the Fifth Layers comprises three contracts, with each contract providing one third of 95% of the total Layer limit and expiring May 31, 2016, May 31, 2017 and May 31, 2018. Coverage for the Sixth Layer and for a portion of the Ninth Layer is provided by two contracts, distinct to each layer, and both with seven year terms expiring May 31, 2022.

-  2013-1 PCS Class B 7th Layer Limit is \$150 million or 34.09% of \$440 million between a \$3.07 billion to \$3.51 billion layer and is not subject to reinstatement.
-  2013-1 PCS Class A 9th Layer Limit is \$200 million or 44.84% of \$446 million between a \$3.62 billion to \$4.07 billion layer and is not subject to reinstatement.

2013-1 PCS Excess Catastrophe Reinsurance Agreement

The 2013-1 PCS Excess Catastrophe Reinsurance agreement comprises parts of Layers 7 and 9 of the Nationwide Excess Catastrophe Reinsurance program and reinsures personal lines property and automobile excess catastrophe losses caused by hurricanes in 28 states and the District of Columbia, and earthquakes, including fires following earthquakes, in California, New York, and Washington. The agreement comprises two contracts: a Class B Excess Catastrophe Reinsurance contract which provides \$150 million in limits excess of a \$3.07 billion attachment level, and a Class A Excess Catastrophe Reinsurance contract which provides \$200 million in limits excess of a \$3.62 billion attachment level. The contracts' risk period began on May 4, 2013 and expires on May 3, 2017. The contracts do not include a reinstatement of limits. In addition to reinsuring Allstate and the same 15 affiliates reinsured under the Nationwide Per Occurrence Excess Catastrophe Reinsurance agreement, the 2013-1 PCS Excess Catastrophe Reinsurance agreement also includes coverage for two Esurance affiliates.

Amounts payable under the agreement are based on insured industry losses as reported by PCS and further indexed by an annual pay-out factor specific to personal lines property and personal lines automobile exposures in the agreement's covered areas. Reinsurance recoveries under the 2013-1 PCS Excess Catastrophe Reinsurance agreement are limited to our ultimate net loss from a PCS reported hurricane or earthquake event, in excess of each contract's specific attachment level and subject to each contract's limit.

-  2014-1 PCS Class D 7th Layer Limit is \$305 million or 61% of \$500 million between a \$3.07 billion to \$3.57 billion layer and is not subject to reinstatement.
-  2014-1 PCS Class C 9th Layer Limit is \$115 million or 25.78% of \$446 million between a \$3.62 billion to \$4.07 billion layer and is not subject to reinstatement.
-  2014-1 PCS Class B 10th Layer Limit is \$330 million or 95.1% of \$347 million between a \$4.07 billion to \$4.42 billion layer and is not subject to reinstatement.

2014-1 PCS Excess Catastrophe Reinsurance Agreement

The 2014-1 PCS Excess Catastrophe Reinsurance agreement comprises parts of Layers 7 and 9, and Layer 10 of the Nationwide Excess Catastrophe Reinsurance program and reinsures personal lines property and automobile excess catastrophe losses caused by hurricanes in 29 states and the District of Columbia, and earthquakes, including fires following earthquakes, in California, New York, and Washington. The agreement comprises three contracts: a Class D Excess Catastrophe Reinsurance contract which provides \$305 million in limits excess of a \$3.07 billion attachment level, a Class C Excess Catastrophe Reinsurance contract which provides \$115 million in limits excess of a \$3.62 billion attachment level, and a Class B Excess Catastrophe Reinsurance contract which provides \$330 million in limits excess of a \$4.07 billion attachment level. The contracts are effective on May 22, 2014 with the risk period for the Class D Excess Catastrophe Reinsurance contract expiring on May 21, 2019 and the risk periods for the Class C Excess Catastrophe Reinsurance contract and the Class B Excess Catastrophe Reinsurance contract expiring on May 21, 2018. The contracts do not include a reinstatement of limits. In addition to reinsuring Allstate and the same 17 affiliates reinsured under the 2013-1 PCS Excess Catastrophe Reinsurance agreement, the 2014-1 PCS Excess Catastrophe Reinsurance agreement also includes coverage for affiliates that underwrite business exclusively in the State of New Jersey. While the 2014-1 PCS Excess Catastrophe Reinsurance agreement does not provide reinsurance recoveries for New Jersey hurricane exposures for the risk period beginning May 22, 2015, the agreement allows for the potential of these recoveries in the remaining risk periods.

Amounts payable under the agreement are based on insured industry losses as reported by PCS and further indexed by an annual pay-out factor specific to personal lines property and automobile exposures in the agreement's covered areas. Reinsurance recoveries under the PCS Excess Catastrophe Reinsurance agreement are limited to our ultimate net loss from a PCS reported hurricane or earthquake event, in excess of each contract's specific attachment level and subject to each contract's limit.

First Buffer 7th Layer Limit is 34% of \$60 million excess of \$3.51 billion and is not subject to reinstatement.

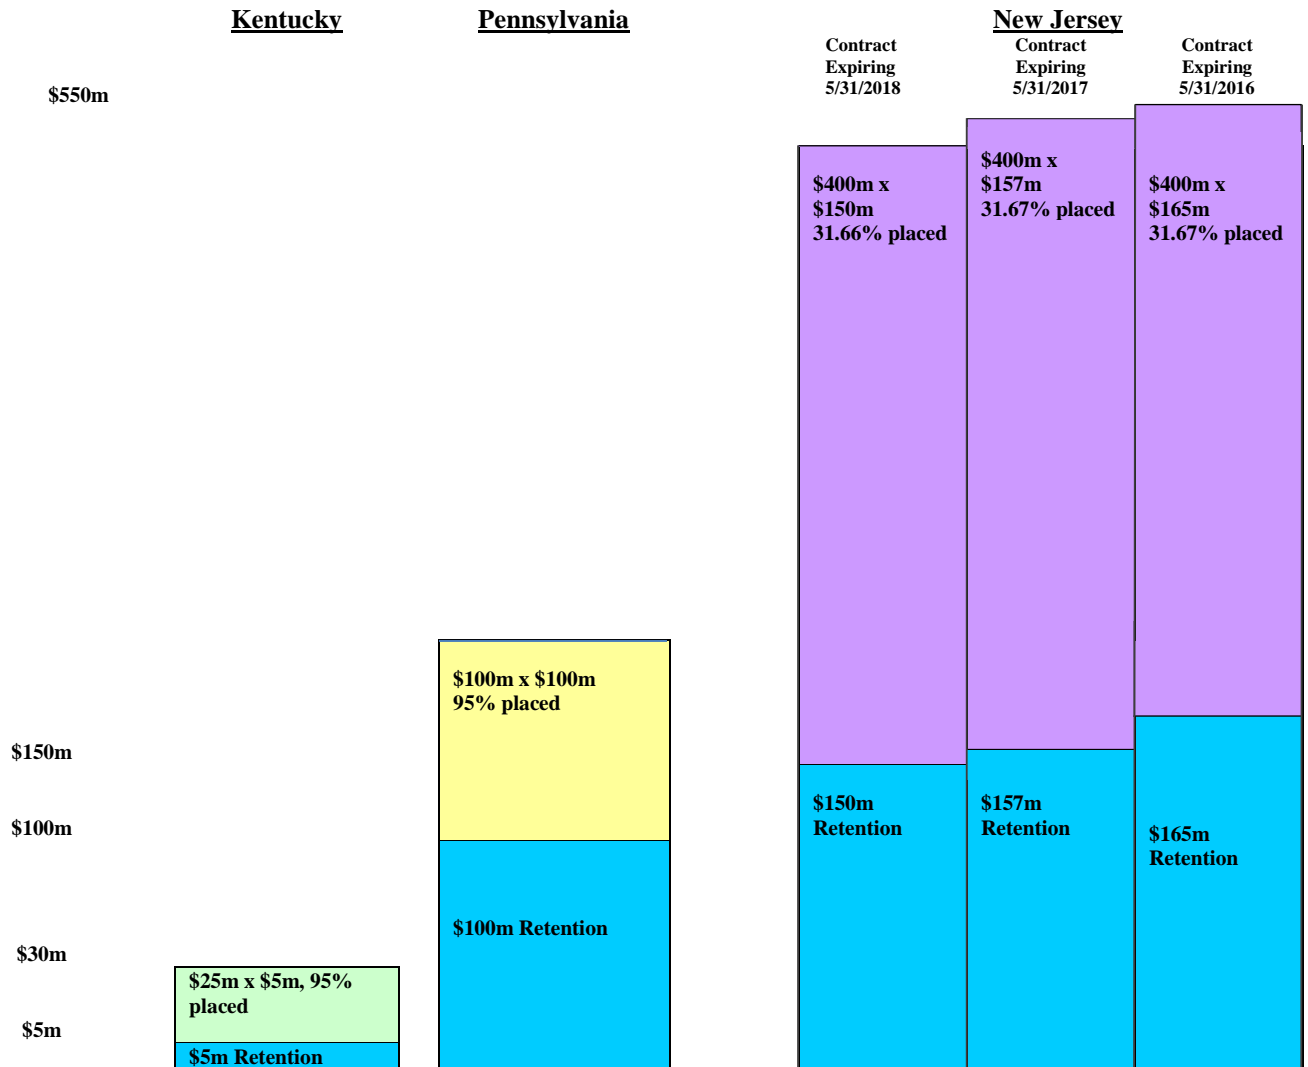

Second Buffer 8th Layer Limit is 95% of \$50 million excess of \$3.57 billion and is not subject to reinstatement.

Buffer Layer Excess Catastrophe Reinsurance Agreement

The Buffer Layer Excess Catastrophe Reinsurance agreement comprises a portion of Layer 7 and Layer 8 and reinsures personal lines property and automobile excess catastrophe losses caused by multiple perils in all states except Florida and New Jersey. The agreement comprises two, two year term contracts, each incepting June 1, 2015 and expiring May 31, 2017. For the June 1, 2015 to May 31, 2016 term, one contract, providing a portion of coverage in the Seventh Layer, provides one annual limit of 34% of \$60 million in limits or \$20.4 million excess of a \$3.51 billion retention. The placement of this contract, in conjunction with the 2013-1 PCS Class B contract and the 2014-1 PCS Class D PCS contract, achieves a 95% placement of the Seventh Layer. The Eighth Layer comprises a separate contract that provides one annual limit of \$50 million excess of a \$3.57 billion retention and is 95% placed. The contracts do not include a reinstatement of limits. The reinsurance premium is subject to redetermination for exposure changes.

2015 Excess Catastrophe Per Occurrence Reinsurance Agreements for Kentucky, Pennsylvania and New Jersey

The retention and limit of each contract apply to the ceding companies named on the contract as a group and not individually.

New Jersey – The Excess Catastrophe Reinsurance agreement – New Jersey comprises two existing contracts and a newly placed contract that reinsures personal lines property and automobile excess catastrophe losses in New Jersey caused by of multiple perils. The two existing contracts expiring May 31, 2016 and May 31, 2017 and the newly placed contract expiring May 31, 2018 provide 31.67%, 31.67%, and 31.66%, respectively, of the \$400 million limit in excess of a provisional \$165 million retention, a \$157 million retention, and a \$150 million retention, respectively. Each contract includes one reinstatement per contract year, with premium due. The reinsurance premium and retention are subject to redetermination for exposure changes at each anniversary.

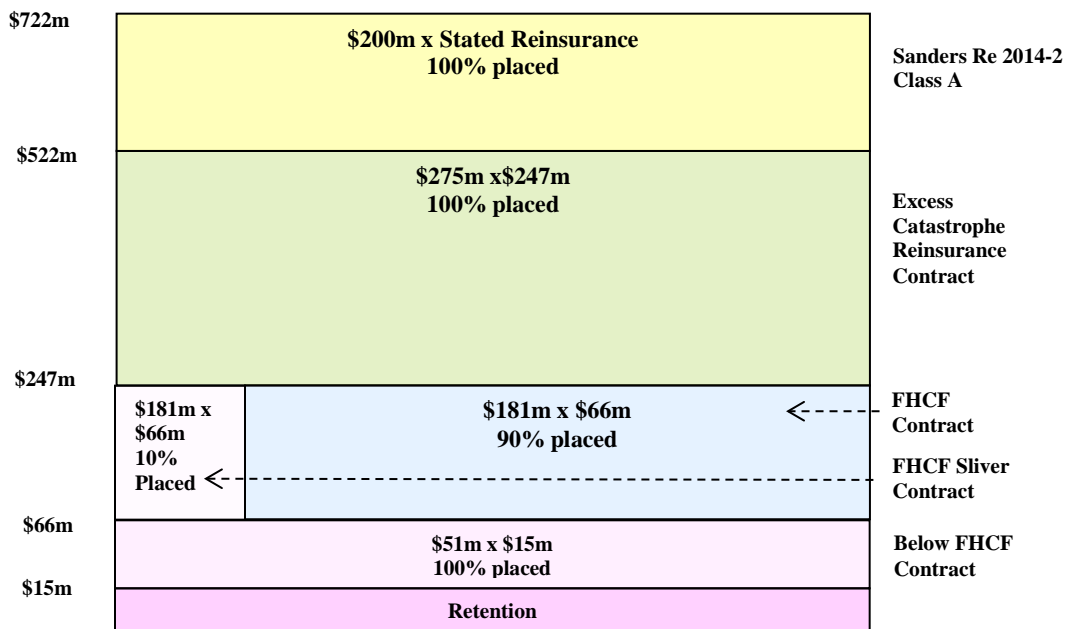

Pennsylvania – The Excess Catastrophe Reinsurance agreement - Pennsylvania is effective June 1, 2015 for three years and reinsures personal lines property excess catastrophe losses caused by multiple perils in the state of Pennsylvania. The contract provides three limits of \$100 million in excess of a \$100 million retention subject to two limits being available in any one contract year and is 95% placed. The reinsurance premium and retention are not subject to redetermination for exposure changes at each anniversary.

Kentucky – The Earthquake Excess Catastrophe Reinsurance agreement – Kentucky is effective June 1, 2014 for three years and reinsures personal lines property excess catastrophe losses caused by earthquakes or fires following earthquakes in Kentucky. The contract provides three limits of \$25 million in excess of a \$5 million retention with two limits available in any one year and is 95% placed. The reinsurance premium and retention are not subject to redetermination for exposure changes at each anniversary.

2015 Florida Excess Catastrophe Reinsurance Agreement

- Estimated retentions are calculated for each Company independently for all contracts with the exception of the Below FHCf Catastrophe Reinsurance contract where the retention applies on a combined company basis.
- The Below FHCf Catastrophe Reinsurance contract provides \$51 million excess of \$15 million and is subject to two reinstatements.
- The Mandatory FHCf contracts provide 90% of \$181 million excess of \$66 million*. Their estimated limits and retentions are subject to re-measurement based on June 30, 2015 exposure data. The FHCf retention is subject to adjustment upward or downward to an actual retention which is determined based on the submitted exposures of all FHCf participants.
- The FHCf Sliver contract reinsures Castle Key's 10% co-participation, on a multiple perils basis, of the \$181 million limit excess of \$66 million provided by the FHCf contract. It is not subject to reinstatement.
- The Excess contract provides \$275 million in excess of \$66 million (the FHCf retention) and in excess of an estimated \$181 million (the FHCf Sliver contract as if 100% placed). It is not subject to reinstatement. This contract's retention adjusts downward when qualifying losses consume the FHCf Sliver contract limit of \$181 million which is deemed to have been placed, and thereafter further adjusts downward upon the exhaustion of any portion of the Below FHCf contract limit and once the Below the FHCf contract's limits and the two reinstatements of these limits have been expended by qualifying losses. When applying the dropdown adjustment, the qualifying losses are deemed to be those reinsured pursuant to the multiple perils coverage provided by the FHCf Sliver contract.
- The Sanders Re 2014-2 contract provides \$200 million in limits excess of \$66 million and in excess of Stated Reinsurance which, for the first annual period, consists of the Mandatory FHCf contracts as if each contract were 100% placed and as if coverage is provided for multiple perils, and the Excess contract. The Sanders Re 2014-2 contract will drop down as the Stated Reinsurance is exhausted. All Stated Reinsurance is deemed to be eroded on a multiple perils basis pursuant to the terms of the non-FHCf contracts.

*CKIC's Mandatory FHCf contract provides a provisional \$40,166,638 retention with a \$110,069,578 limit and CKI's Mandatory FHCf contract provides a \$25,801,620 retention with a \$70,704,785 limit. For ease of reference, FHCf provisional retentions and limits have been consolidated for the purposes of this disclosure.

The Florida Excess Catastrophe Reinsurance agreement reinsures Castle Key Insurance Company ("CKIC") and Castle Key Indemnity Company ("CKI", and together with CKIC, "Castle Key") for personal lines property excess catastrophe losses in Florida. This agreement comprises six contracts and includes Castle Key's participation in the mandatory Florida Hurricane Catastrophe Fund ("FHCf"). All contracts comprising the agreement and as described below, except the Sanders Re 2014-2 Class A contract ("Sanders Re 2014-2 contract"), provide a one year term effective June 1, 2015 through May 31, 2016 with reinsurance premium subject to redetermination for exposure changes. The Sanders Re 2014-2 contract is a three year term contract with a risk period effective June 1, 2014 through May 31, 2017. The contract contains a variable reset option which Castle Key may elect to invoke for the last two risk periods and which allows for annual adjustment of the contract's attachment level, within specified limits, and with a corresponding premium adjustment. With the exception of the Mandatory FHCf contracts and the Sanders Re 2014-2 contract, all contracts provide reinsurance for qualifying losses to personal lines property arising out of multiple perils in addition to hurricanes. The Mandatory FHCf contracts reinsure qualifying personal lines property losses caused by storms the National Hurricane Center declares to be hurricanes, and the Sanders Re 2014-2 contract reinsures qualifying losses to personal lines property caused by a Named Storm Event, a Severe Thunderstorm Event, or an Earthquake Event, all as defined in the contract.

Illustration of Utilization of Reinsurance Coverage (a)

The following examples are provided to illustrate Allstate's reinsurance program and should not be relied upon to determine the amount of Allstate's net loss from any actual events that may occur in the future. They are based on hypothetical situations. The actual amounts recoverable under our reinsurance program and the amount of our net loss from any one event or series of events could differ materially from the hypothetical results presented in these examples due to a variety of factors, including the nature and location of the specific losses incurred, the specific lines of business covered by the various reinsurance agreements, and the impact of potential litigation. Provisional retentions for the 2015 program have been used.

Loss	600.0												
Retention	<u>247.0</u>	247 retention (66 retention below FHCF + FHCF Sliver as if 100% placed)											
Subject Loss	353.0	Total loss less 247 retention											
Recoverable	(275.0)	100% of 275 x 247 retention; limit exhausted									(275.0)		
Sanders Re 2014-2 Class A ^(d)													
Loss	600.0												
Retention	<u>522.0</u>	522 retention (66 plus Stated Reinsurance equal to the mandatory FHCF as if 100% placed and the Excess coverage)											
Subject Loss	78.0	Total loss less 522 retention											
Recoverable	(78.0)	100% of 78 x 522 retention; 122 limit remains excess of Stated Reinsurance of 66 (15 retention plus 51 Below FHCF limit)										(78.0)	
Florida loss	600.0												
Less recoverables:													
Below FHCF	(51.0)												
FHCF	(162.9)												
FHCF Sliver	(18.1)												
Excess	(275.0)												
Sanders Re 2014-2 Class A	(78.0)												
Net loss	15.0												
Total loss	5,400.0												
Less net recoverables	(4,275.2)												
Net loss	1,124.8												
			(2,972.0)	(274.0)	(376.3)	(20.4)	(47.5)	0.0	(51.0)	(162.9)	(18.1)	(275.0)	(78.0)

(a) For purposes of these examples, the loss is assumed to have occurred during the contract year 6/1/15 through 5/31/16.

(b) For purposes of these examples, the limits of liability and retentions have been combined for Castle Key Insurance Company and Castle Key Indemnity Company.

(c) Allstate's separately capitalized Florida underwriting entities underwrite only personal lines property business. Florida automobile business, underwritten by other Allstate underwriting entities, is not reinsured.

(d) The Sanders Re 2014-2 Class A Contract adjusts downward to a \$15 million retention upon the exhaustion of both: 1.) the "Stated Reinsurance," as defined in the Contract and as applicable for each annual period; and 2.) the contract limit of the Below the FHCF Contract, including the two reinstatement of its limits. If any portion of the Below the FHCF Contract is unexhausted, the Sanders Re 2014-2 Class A Contract's attachment point remains at \$66 million.
